

Subscription Tracker

Thanks for your order. Filling it in takes a few minutes, and then you see what your subscriptions cost each month and each year.

Opening the file

Google Sheets: go to drive.google.com, click *New > File upload* and pick **Subscription-Tracker.xlsx**. Open it, then choose *File > Save as Google Sheets*.

Excel: double-click the file, and click "Enable editing" if Excel asks.

Finding your subscriptions

1. Go through your bank or card statements for the last 3 months and look for amounts that repeat.
2. On your phone, open the App Store or Google Play and go to Subscriptions.
3. Search your e-mail for "receipt", "renewal" and "trial".

Filling it in

One line per subscription: name, category, cost, how often you pay and the date you were last charged. Choose Yes under *Free trial?* for trials. You only type in the **yellow cells**. Delete the example lines first. Select the yellow cells and press Delete, rather than deleting whole rows.

Once a week

Open the Dashboard. Red means a free trial is about to charge. Orange means you have not used something for a month. Mark a subscription **Cancel** to see what you save per year, then cancel it with the company itself.

Made with the help of AI tools. This file does not cancel anything for you.
